

JANUSZ SWIATCZAK

SENIOR APPLICATION SPECIALIST

janusz.swiatczak@gmail.com
(0061) 423 922 855

Profile

Enhance experience with smart design and efficient implementation. Foster re-usability, maintainability and performance. Promote standards and best coding practices.

Skills

Architecture

SOA Design, Implementation and Orchestration, Metadata modeling, Service Layers, Service Bus and SOA middleware

Financials/CS/HR

Approvals / Delegations / Assets / Billing / Invoicing / Workflow / Notifications / Student lifecycle / Enrolments / PIN pckgs / Payrol / Gideon Taylor eForms TM

Peoplesoft Integration

Enhance end user experience, implement high performance libraries and integration APIs across a wide range of products and applications.

Technical

Integration Broker

App Engine

SQR

Peoplecode

SQL

Python

Java

SOA

OSB

BPEL

JavaScript

node.js

HTML/CSS

Git / Subversion

Linux

Experience

The University of Adelaide

2008-2014

Senior Application Specialist

Design and implement integration layer between peoplesoft and a number of external systems. To facilitate troubleshooting I have co-authored a unique asynchronous database logging library for Peoplesoft. Built a versatile solution to handling inconsistencies in delivered Integration Broker APIs and HCM Service registry. Introduced a quick cycle iScript-based testing and prototyping framework. Created python libraries for efficient manipulation of Peoplesoft data.

The University of South Australia

2004-2008

Senior Peoplesoft Developer

Built a framework for easy generation of the integration libraries for peoplesoft to .Net based web applications (Student portals). Optimised an EmpowerHR based payroll processing engine (processing time decreased by 750%). Provided mechanism for efficient visualisation of the CMDB Repository (ITIL). The Integration messaging and XML processing libraries that I have designed and implemented are still in use.

Education

The University of South Australia

1997-2000

Bachelor of Computer and Information Science, major: Software Engineering (Hons)

Awards: Dean's Merit List (1997-2000)

The University of Lodz, Poland

1993-1996

Bachelor of Applied Mathematics

Completed year 3 (5 years degree), then moved to Australia
